

ALPACA *Classic*

Our original alpaca quilt, the Alpaca Classic quilt collection is our premium range, being exceptionally soft, lightweight and warm.

The Alpaca Classic quilt collection has set a new and higher standard in restful sleep and comfort.

By skillfully selecting and intimately blending two of nature's finest fibres: 60% Australian alpaca fleece and 40% Australian downs wool, and then quilted between a superfine sateen cotton casing, the result is a uniquely lightweight quilt that is comfortably warm and beautifully soft.

Alpaca fleece is highly moisture absorbent; an essential feature in all high quality quilts, to optimize sleeping comfort by being dry and warm. Naturally clean and flame retardant.

Alpaca Classic quilts are available in two standard weights 450gsm for winter and 300gsm for summer/ mid season to suit individual sleep needs.
