

ALPACA *gold*

The ultimate indulgence in sleeping comfort...pure Australian alpaca quilts.

Alpaca is the ultimate alternative filling to down, wool and polyester. The exclusive Alpaca Gold quilts are comfortably warm, light weight and luxuriously soft. This combination is all due to the unique qualities of alpaca fleece; a smooth and lustrous fibre surface and a semi hollow core which traps air to provide outstanding warmth without weight.

Offering exceptional comfort, Alpaca Gold quilts offer the perfect combination of a natural chemical free alpaca fleece, optimal moisture absorbency to keep you dry and warm, without the weight.

Alpaca Gold quilts are encased in a superfine 100% cotton sateen fabric of the finest quality with a luxurious drape to enhance the softness of the alpaca fleece filling.

The Alpaca Gold quilts are available in two standard weights of 500 gsm (winter) and 350gsm (mid season / summer) and each quilt is hand crafted and individually certified for quality and authenticity.
